RE: Request Permission to Bid WRF Tank Lining Project

2 D. Kauckich

The Department of Engineering & Operations respectfully requests permission to bid the Water Reclamation Facility Tertiary Water Tank Lining Project. It was noticed during the summer season that the holding tank for the Tertiary (reclaimed) water was leaking. After the irrigation season was over, the tank was drained and inspected. Through this testing and inspection, we have determined that the tank needs to be repaired (plated) in various areas and then re-coated. This is the original tank and has never been rehabilitated since its installation more than 30 years ago.

Any Questions regarding this request should be directed to the Department of Engineering & Operations. Thank you for your consideration of this request.

Sincerely,

Paul D. Kauchich, PE

### AGREEMENT FOR DISBURSEMENT, RECEIPT AND USE OF GRANT FUNDS

**THIS AGREEMENT** made the 13<sup>th</sup> day of December 2018, by and between the Sweetwater County Joint Travel and Tourism Board, hereinafter referred to as the Grantor, RS Family Rec. Center Ice Arena, hereinafter referred to as the Grantee, for the purpose of governing the disbursement by the Grantor of certain Grant Funds as well as the receipt and use of said grant amounts by the Grantee,

#### WITNESSETH:

WHEREAS, Grantee has previously submitted an application to the Grantor for the purpose of promoting tourism to Sweetwater County by hosting the Wind & Mud Hockey Tournament and,

WHEREAS, the Grantor did approve said proposal for Grant Funds in the amount of \$3,500.00; and,

WHEREAS, the Grantor and the Grantee are mutually desirous of funding Grantee's project in the amount previously approved by the Grantor;

NOW, THEREFORE, Grantor and Grantee mutually and expressly agree as follows:

#### 1. CONTRACT AND GOVERNING DOCUMENTS

The Contract Documents pertaining to the disbursement, receipt and use of Grant Funds shall include this Agreement, Grantee's Application for Grant Funds as approved by the Grantor, the Grant Application Guidelines as promulgated by the Grantor, the Grantor's policies and procedures as promulgated by the Grantor, as well as any amendments to such guidelines, policies and procedures as may be in force at the time of the award of any such grant. All of the aforementioned documents and materials are considered material parts of the Contract Documents and, by this reference, are incorporated herein and made a part hereof as though the same were fully set forth.

#### 2. GOVERNING LAW

This Agreement is subject to the Wyoming Joint Powers Act, §16-1-102, et seq, Wyoming Statutes Annotated (LexisNexis 2004); §39-15-204 Wyoming Statutes Annotated (LexisNexis 2004); §39-15-211(a)(ii), Wyoming Statutes Annotated (LexisNexis 2004); Uniform Municipal Fiscal Procedures Act, §§ 16-4-101 through 16-4-123, Wyoming Statutes Annotated (LexisNexis

2004); and, any and all other applicable Statutes of the State of Wyoming; and, the Sweetwater County Joint Powers Agreement; and, the Joint Travel and Tourism Board and the Sweetwater County Joint Travel and Tourism Board By-Laws; and, the Sweetwater County Joint Travel and Tourism Board Policies and Procedures. Grantee is charged with full knowledge and understanding of the governing law as well as all terms and provisions of the Contract Documents and agrees to act and conduct its activities in full compliance therewith.

#### 3. FUNDING

- (A) Grantor agrees to fund Grantee's promotional project up to and including the amount of \$3,500.00, but under no circumstances shall the amount of funding exceed said amount. The parties mutually and expressly agree that any cost overruns shall be the sole and exclusive responsibility of the Grantee, and the Grantee shall indemnify and hold harmless the Grantor from any liability of whatsoever kind or character relating to the same.
- (B) Funding shall be in the form of reimbursement only. The parties mutually and expressly agree that no funds shall be disbursed by the Grantor until after Grantee's project shall have completed and, further, that no funds shall be disbursed until such time as the Grantee has submitted to the Board, a voucher with all necessary attachments and requisite details on or in such form as may be required by Grantor. Grantee agrees that any funds paid by the Grantor will be applied directly to the credit card account the items were charged on. Any request for payment or claim against Grant Funds allocated to the Grantee by the Grantor must be submitted within one hundred and twenty (120) days of completion of Grantee's project or the same shall be deemed to be waived and barred. All responsibility and liability for the completion or non-completion of any documentation required by the Contract Documents shall rest solely with the Grantee.
- (C) The parties hereto further mutually and expressly agree that the Grantee shall not request payment for, nor will the Grantor approve, any non-itemized expenditure or an expenditure which is inconsistent with, or which deviated from, Grantee's original Application for Grant Funds or the Award of Grant and under no circumstances shall any disbursement be made in excess of the itemized amount approved in conjunction with the Award of Grant.
- (D) To the extent that Grantee's project includes the production of promotional materials which is funded in whole or in part by Grant Funds, said promotional materials shall include a credit worded substantially as follows:

"PRODUCED IN COOPERATION WITH THE SWEETWATER COUNTY JOINT TRAVEL AND TOURISM BOARD"

(E) The parties expressly understand, agree, and acknowledge that no obligation of Grantor's Board shall continue beyond its existence or become the obligation of any of the parties to the Sweetwater County Travel & Tourism Board Joint Powers Agreement. The parties further expressly understand, agree, and acknowledge that in the event of an unforeseen economic emergency, or other exigent or cogent reason, the Grantor shall have the sole authority to cancel, rescind, and hold null and void this Agreement for Disbursement, Receipt and Use of Grant Funds by providing to Grantee written notice of its intent to do so at any time, without incurring any liability whatsoever therefore to Grantee or any other person or entity claiming any benefit herefrom.

#### 4. EVALUATIONS, REVIEW AND TERMINATION OF FUNDING

Grantor reserves the right to periodically review, inspect and evaluate the progress of Grantee's project or any components thereof to determine compliance or noncompliance with the stipulations of the Grant Award or conditions imposed by the Contract Documents. In the event it is determined that the Grantee is in noncompliance or is deviating from the Grant as approved; Grantor reserves the right, in its sole discretion, to terminate and cancel all or a portion of its funding commitment without incurring any liability to the Grantee. In addition, the Board reserves the right, in its sole discretion, to amend any Grant or Award at any time prior to Grantee's actual expenditure of funds in reliance thereon. It is mutually and expressly agreed that Grantee shall expend no funds in reliance upon any Grant Award nor shall request for payment or claims for reimbursement be made for any expense incurred prior to the execution of the Agreement.

#### 5. INDEMNIFICATION

- (A) Notwithstanding and without limiting the generalities of the obligations and covenants contained in this Agreement and the Contract Documents, the parties mutually and expressly agree that the Grantor's involvement in any of Grantee's projects is that of a funding agency only and that the responsibility for the conduct or supervision of Grantee's project or activities, rests solely with the Grantee. Grantee agrees to indemnify and hold harmless the Grantor from and against any claims and/or damages of whatsoever kind and character including, but not limited to, costs, attorney's fees and expenses, with or without court action, and irrespective of whether the same be to property or person, including injury or death, which costs, claims or damages may result from the conduct by Grantee or of Grantee's project or activity.
- (B) Except as specifically directed or authorized herein, the Grantee is not permitted to, and Grantee shall not, use the name of the Grantor for the purposes of inducing any third party to enter into any contract or to incur any liability or exposure to the Grantee. Furthermore, the Grantee shall conduct all its affairs to avoid creating an impression or appearance that Grantor's involvement with any project or activity of Grantee is any more than that specified in the Contract Documents.

#### 6. COMPLIANCE WITH GOVERNING LAW

In addition with the provisions of governing set forth in Paragraph 2 hereinabove, the Grantee shall also comply with all any and all applicable Federal, State, Local Laws, Ordinances, or Codes.

#### 7. BOOKS AND RECORDS

Grantee shall maintain books and accounts of its project and activities and related costs and expenses in accordance with generally accepted accounting principals and practices; which books and records shall be available to the Grantor during Grantee's normal business hours for the duration of Grantee's project or activity. Grantee shall timely furnish to Grantor any and all information, documents, receipts, invoices, and the like which Grantor, its accountants, auditors, or legal counsel, may request.

#### 8. NOTICE

All notices required, or other official correspondence relating to Grantee's project or activity, shall be made by U.S. Postal Service first class mail to the following:

SIGN AND RETURN TO T&T OFFICE GRANT # 18-12-07 GRANTEE'S TAX ID NUMBER (If applicable): \_

### AGREEMENT FOR DISBURSEMENT, RECEIPT AND USE OF GRANT FUNDS

**THIS AGREEMENT** made the 18<sup>th</sup> day of December 2017, by and between the Sweetwater County Joint Travel and Tourism Board, hereinafter referred to as the Grantor, RS Family Rec. Center hereinafter referred to as the Grantee, for the purpose of governing the disbursement by the Grantor of certain Grant Funds as well as the receipt and use of said grant amounts by the Grantee,

#### WITNESSETH:

WHEREAS, Grantee has previously submitted an application to the Grantor for the purpose of promoting tourism to Sweetwater County by hosting the Drop In Hockey Tournament and,

**WHEREAS**, the Grantor did approve said proposal for Grant Funds in the amount of \$3,500.00; and,

WHEREAS, the Grantor and the Grantee are mutually desirous of funding Grantee's project in the amount previously approved by the Grantor;

NOW, THEREFORE, Grantor and Grantee mutually and expressly agree as follows:

#### 1. CONTRACT AND GOVERNING DOCUMENTS

The Contract Documents pertaining to the disbursement, receipt and use of Grant Funds shall include this Agreement, Grantee's Application for Grant Funds as approved by the Grantor, the Grant Application Guidelines as promulgated by the Grantor, the Grantor's policies and procedures as promulgated by the Grantor, as well as any amendments to such guidelines, policies and procedures as may be in force at the time of the award of any such grant. All of the aforementioned documents and materials are considered material parts of the Contract Documents and, by this reference, are incorporated herein and made a part hereof as though the same were fully set forth.

#### 2. GOVERNING LAW

This Agreement is subject to the Wyoming Joint Powers Act, §16-1-102, et seq, Wyoming Statutes Annotated (LexisNexis 2004); §39-15-204 Wyoming Statutes Annotated (LexisNexis 2004); §39-15-211(a)(ii), Wyoming Statutes Annotated (LexisNexis 2004); Uniform Municipal Fiscal Procedures Act, §§ 16-4-101 through 16-4-123, Wyoming Statutes Annotated (LexisNexis

2004); and, any and all other applicable Statutes of the State of Wyoming; and, the Sweetwater County Joint Powers Agreement; and, the Joint Travel and Tourism Board and the Sweetwater County Joint Travel and Tourism Board By-Laws; and, the Sweetwater County Joint Travel and Tourism Board Policies and Procedures. Grantee is charged with full knowledge and understanding of the governing law as well as all terms and provisions of the Contract Documents and agrees to act and conduct its activities in full compliance therewith.

#### 3. FUNDING

- (A) Grantor agrees to fund Grantee's promotional project up to and including the amount of \$3,500.00, but under no circumstances shall the amount of funding exceed said amount. The parties mutually and expressly agree that any cost overruns shall be the sole and exclusive responsibility of the Grantee, and the Grantee shall indemnify and hold harmless the Grantor from any liability of whatsoever kind or character relating to the same.
- (B) Funding shall be in the form of reimbursement only. The parties mutually and expressly agree that no funds shall be disbursed by the Grantor until after Grantee's project shall have completed and, further, that no funds shall be disbursed until such time as the Grantee has submitted to the Board, a voucher with all necessary attachments and requisite details on or in such form as may be required by Grantor. Grantee agrees that any funds paid by the Grantor will be applied directly to the credit card account the items were charged on. Any request for payment or claim against Grant Funds allocated to the Grantee by the Grantor must be submitted within one hundred and twenty (120) days of completion of Grantee's project or the same shall be deemed to be waived and barred. All responsibility and liability for the completion or non-completion of any documentation required by the Contract Documents shall rest solely with the Grantee.
- (C) The parties hereto further mutually and expressly agree that the Grantee shall not request payment for, nor will the Grantor approve, any non-itemized expenditure or an expenditure which is inconsistent with, or which deviated from, Grantee's original Application for Grant Funds or the Award of Grant and under no circumstances shall any disbursement be made in excess of the itemized amount approved in conjunction with the Award of Grant.
- (D) To the extent that Grantee's project includes the production of promotional materials which is funded in whole or in part by Grant Funds, said promotional materials shall include a credit worded substantially as follows:

"PRODUCED IN COOPERATION WITH THE SWEETWATER COUNTY JOINT TRAVEL AND TOURISM BOARD"

(E) The parties expressly understand, agree, and acknowledge that no obligation of Grantor's Board shall continue beyond its existence or become the obligation of any of the parties to the Sweetwater County Travel & Tourism Board Joint Powers Agreement. The parties further expressly understand, agree, and acknowledge that in the event of an unforeseen economic emergency, or other exigent or cogent reason, the Grantor shall have the sole authority to cancel, rescind, and hold null and void this Agreement for Disbursement, Receipt and Use of Grant Funds by providing to Grantee written notice of its intent to do so at any time, without incurring any liability whatsoever therefore to Grantee or any other person or entity claiming any benefit herefrom.

#### 4. EVALUATIONS, REVIEW AND TERMINATION OF FUNDING

Grantor reserves the right to periodically review, inspect and evaluate the progress of Grantee's project or any components thereof to determine compliance or noncompliance with the stipulations of the Grant Award or conditions imposed by the Contract Documents. In the event it is determined that the Grantee is in noncompliance or is deviating from the Grant as approved; Grantor reserves the right, in its sole discretion, to terminate and cancel all or a portion of its funding commitment without incurring any liability to the Grantee. In addition, the Board reserves the right, in its sole discretion, to amend any Grant or Award at any time prior to Grantee's actual expenditure of funds in reliance thereon. It is mutually and expressly agreed that Grantee shall expend no funds in reliance upon any Grant Award nor shall request for payment or claims for reimbursement be made for any expense incurred prior to the execution of the Agreement.

#### 5. INDEMNIFICATION

- (A) Notwithstanding and without limiting the generalities of the obligations and covenants contained in this Agreement and the Contract Documents, the parties mutually and expressly agree that the Grantor's involvement in any of Grantee's projects is that of a funding agency only and that the responsibility for the conduct or supervision of Grantee's project or activities, rests solely with the Grantee. Grantee agrees to indemnify and hold harmless the Grantor from and against any claims and/or damages of whatsoever kind and character including, but not limited to, costs, attorney's fees and expenses, with or without court action, and irrespective of whether the same be to property or person, including injury or death, which costs, claims or damages may result from the conduct by Grantee or of Grantee's project or activity.
- (B) Except as specifically directed or authorized herein, the Grantee is not permitted to, and Grantee shall not, use the name of the Grantor for the purposes of inducing any third party to enter into any contract or to incur any liability or exposure to the Grantee. Furthermore, the Grantee shall conduct all its affairs to avoid creating an impression or appearance that Grantor's involvement with any project or activity of Grantee is any more than that specified in the Contract Documents.

#### 6. COMPLIANCE WITH GOVERNING LAW

In addition with the provisions of governing set forth in Paragraph 2 hereinabove, the Grantee shall also comply with all any and all applicable Federal, State, Local Laws, Ordinances, or Codes.

#### 7. BOOKS AND RECORDS

Grantee shall maintain books and accounts of its project and activities and related costs and expenses in accordance with generally accepted accounting principals and practices; which books and records shall be available to the Grantor during Grantee's normal business hours for the duration of Grantee's project or activity. Grantee shall timely furnish to Grantor any and all information, documents, receipts, invoices, and the like which Grantor, its accountants, auditors, or legal counsel, may request.

#### 8. NOTICE

All notices required, or other official correspondence relating to Grantee's project or activity, shall be made by U.S. Postal Service first class mail to the following:

## Ordinances

#### ORDINANCE NO. 2018-16

AN ORDINANCE AMENDING ARTICLES 13-9, ENTITLED "ADMINISTRATIVE PROCEDURES", 16-8 ENTITLED "IMPROVEMENTS" AND 16-9, ENTITLED "DESIGN CRITERIA" OF THE ORDINANCES OF THE CITY OF ROCK SPRINGS, WYOMING.

WHEREAS, after notice given in the manner and for the time required by law, the Planning and Zoning Commission of the City of Rock Springs held a public hearing on November 14, 2018, on proposed amendments to Articles 13-9, 16-8 and 16-9 of the Ordinances of the City of Rock Springs; and,

WHEREAS, the Planning and Zoning Commission of the City of Rock Springs, Wyoming, voted to recommend approval of the proposed amendments to Articles 13-9, 16-8 and 16-9 of the Ordinances of the City of Rock Springs; and,

WHEREAS, Notice of Hearing before the Governing Body of the City of Rock Springs, Wyoming, has been given as required by law, and the Governing Body has determined that said amendments should be adopted.

NOW, THEREFORE, BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF ROCK SPRINGS, STATE OF WYOMING:

Section 1. That Articles 13-9, 16-8, and 16-9 of the Ordinances of the City of Rock Springs be amended as follows:

Amendment 1. That Section 13-904 A. of the Ordinances of the City of Rock Springs be amended by adding the following sub-section as follows, (deletions are denoted by strikethrough and additions are denoted by underline):

#### 13-904 Procedure for Site Plan Approval.

A. General Requirements.

Site Plan Approval shall be required for all new residential, commercial, or industrial construction or uses, or expansions or additions to existing residential, commercial, or industrial uses. Site Plan approval shall be obtained prior to commencement of use or issuance of Building Permit. The design of public street improvements shall comply with Articles 16-8 and 16-9 of the subdivision ordinances. Site developments impacting transportation plan streets shall comply with Section 16-805. The owner, tenant, or lessee shall cause to be filed a Site Plan according to the requirements of this section. For purposes of this Ordinance, site plans shall be classified as Major Site Plans, Minor Site Plans, or Single Family Residential Site Plans. All phases of a proposed phased development shall be considered as a single project for the purposes of determining whether a project is a Major or Minor Site Plan.

Amendment 2. That **Section 13-906 E.(1)b.** of the Ordinances of the City of Rock Springs be amended as follows, (deletions are denoted by strikethrough and additions are denoted by underline):

b. The design and construction specifications for all utilities and street improvements <u>have</u> complied with <u>Articles 16-8 and 16-9 of the subdivision ordinances and</u> have been approved by the Director of Engineering and Operations. <u>Any impacted transportation plan streets have been addressed per section 16-805.</u>

Amendment 3. That **Section 16-805** of the Ordinances of the City of Rock Springs be amended by deleting and adding as follows, (deletions are denoted by strikethrough and additions are denoted by <u>underline</u>):

#### 16-805 Installation of Improvements.

The subdivider shall install the following improvements in a timely manner and in accordance with plans, specifications, and data as approved by the City Engineer.

At the subdivider's expense, the subdivider shall provide inspection of all subdivision improvements. (Reference 16-904(b)) Inspection shall be full time during the installation of water, sanitary sewer, and storm sewer systems.

Prior to acceptance of subdivision improvements, final inspections of the subdivision improvements shall be requested by the subdivider. The final inspections shall be coordinated by the Department of Engineering & Operations and performed by the appropriate City Department.

The subdivider shall make every effort to ensure that the subdivision improvements are complete prior to scheduling final inspections with the Department of Engineering & Operations. Should excessive re-inspections by the City be necessary, the subdivider may be required to pay a reasonable charge for the re-inspection services.

#### (A) Sanitary Sewer System.

There shall be constructed at the owner and subdivider's expense, a sanitary sewer system including all necessary pumping stations,\* pumping equipment,\* manholes and all other necessary or desirable appurtenances to provide for the discharge of sanitary sewage from all lots or parcels of land within the platted area to a connection with the City's sanitary sewers. The sanitary sewer system shall be constructed in accordance with the plans and specifications of the City and at the sewer grades approved by the City. The installation of the sewers shall be under the supervision and inspection of the Department of Public Works, and the subdivider may be required to pay a reasonable charge for the engineering and inspection service. The above mentioned facilities for the collection and disposal of sanitary sewage from the platted area shall, upon final approval and acceptance by the City, become the property of the City.

Under some circumstances the City may require, as a condition for approval of the plat, installation of a sanitary sewer that is larger than necessary to meet the needs of the platted area or the area being subdivided as shown by the Preliminary Plat or Site Plan but necessary to complete the City sanitary system as it relates to both the area being platted and other areas.

\*Pumping stations and pumping equipment will not be permitted by the City unless all means of gravity flow are unavailable or undue hardship would result; increased costs, unless they constitute an undue and prohibitively excessive financial burden as determined by the City, will not constitute a hardship.

#### (B) Storm Drainage System.

There shall be constructed, at the owner and subdivider's expense, a storm drainage system adequate to serve the area, including anticipated extension of use to serve additional areas. The

storm drainage system shall be constructed in accordance with plans and specifications of the City and at sewer grades approved by the City. The installation of storm sewers shall be under the supervision and inspection of the Director of Public Works, and the owner may be required to pay a reasonable charge for the engineering and inspection service. The sewers, shall, upon inspection, approval and acceptance by the City, become the property of the City. Temporary sediment control measures implemented by the developer, which in the opinion of the City Engineer significantly impact the capacity of the storm drainage system, will not be allowed. In the storm sewer design phase, consideration shall be given to alternatives and principles of storm water management.

Under some circumstances the City may require, as a condition for approval of the plat, installation of a storm sewer that is larger than necessary to meet the needs of the platted area or the area being subdivided as shown by the Preliminary Plat or Site Plan, but necessary to complete the City storm sewer system as it relates to both the area being platted and other areas. In such event, the City will pay the subdivider the difference in cost of pipe and installation between the large sewer and the diameter of sewer reasonable to meet the foreseeable needs of the area shown on the Preliminary Plat or Site Plan.

#### (C) Water Main System.

There shall be constructed, at the owner and subdivider's expense, a water main system to adequately serve all lots or parcels of land within the platted area, with due regard to the present and reasonably foreseeable needs of the entire area shown in the Preliminary Plat or Site Plan, and shall connect the same to existing water mains. The water main system shall be constructed in accordance with plans and specifications of the City and Pacific Power and Light Joint Power Water Board.

#### (D) Streets, Street Grading and Surfacing.

The owner of land being platted shall, at his expense, provide the grading of the entire street right-of-way, alley or public place, and provide appropriate paving including curb and gutter on all streets. The street improvements shall be constructed in accordance with the plans and specifications of the City and shall adequately reflect the classification of the street, its location and anticipated volume of traffic. The installation of the streets is under the supervision of the Director of Public Works, and the owner may be required to pay a reasonable charge for the engineering and inspection service. All streets or roads shall be of such width and shall be so constructed as to meet the standards of the public body responsible for the maintenance thereof as outlined in section 16-901 of these regulations. (Ord. No. 91-11, 10-15-91).

#### (E) Street Lights, Street Name Signs and Traffic Control Signs.

The owner shall, at his expense, install all street lights, street name signs and traffic control signs. The lights and signs shall be installed under the supervision of the Director of Public Works, and the owner may be required to pay a reasonable charge for the inspection service. All lights and signs shall be installed so as to meet the standards outlined in Section 16-905 of these regulations. Street lights, street signs and traffic control signs shall be installed prior to acceptance of subdivision improvement or any occupancy permit being issued for any building, in any subdivision.

#### (F) Fire Hydrants.

The owner and subdivider shall, at his expense, install all fire hydrants. The fire hydrants shall be installed under the supervision of the Director of Public Works, and the owner may be required to pay a reasonable charge for the inspection service. All fire hydrants shall be

designed and installed so as to meet the specifications outlined in 16-905 of these regulations. (G) Utilities: Gas, Electricity and Telephone, Etc.

It shall be the responsibility of the owner or subdivider to install all other necessary utilities. Said utilities shall be installed under the supervision of the Director of Public Works and the agency responsible for the particular utility. All utilities shall be installed underground, except that major overhead power lines may be located along arterial streets or other specifically designed streets.

(H) Other Facilities or Improvements.

The owner or subdivider shall, at his expense, install any other facility or improvement as may be specified on the Preliminary Plat, Site Plan, or in a Contract and agreed to by the subdivider. All such additional facilities and improvements shall be installed under the supervision and inspection of the Director of Public Works, and the owner may be required to pay a reasonable charge for the engineering and inspection service. All such facilities and improvements shall be designed, located and/or installed to City specifications as designated by these regulations on the Preliminary Plat, Site Plan, or in a Contract.

(I) Monuments.

The owner and subdivider shall, at his expense, install monuments at all subdivision boundary corners which shall be marked with two (2) inch diameter brass caps. These caps may be set in concrete or be affixed to thirty (30) inch lengths of galvanized pipe and shall be properly marked for identification as to location, shall carry the true elevation, shall be reference if subject to destruction, and again shall show the proper identification and license of the certifying surveyor.

Perimeter ties shall be shown to all Section, Quarter Section and Sixteenth Section Lines. Block and lot corners, Points of Tangency and Points of Curve of all curves shall be marked by a distinctive survey corner marker. Where section lines and quarter section lines intersect the center line of any street, reference shall be given to the nearest section corner or quarter corner.

The placement of all monuments shall be under the supervision of the Director of Public Works, and the owner may be required to pay a reasonable charge for the inspection service.

- (J) Supplemental On-Site Off-Site Street Construction.
  - 1. For purposes of this section, the following definitions shall apply:
    - a. <u>Develop</u>: to plat or create lots, or to construct one or more building(s) on one lot, or establish a use on a lot, or expand a use on a lot.
    - b. <u>Developer</u>: a person, firm, corporation, or association that develops land.
    - c. <u>Transportation Plan-Map</u>: an official map contained within the Rock Springs Master Plan that establishes the location and designation for arterial and collector streets within the City of Rock Springs.
    - d. <u>Transportation Plan-Street</u>: an arterial or collector street shown on the Transportation Plan Map.
    - e. <u>Impacted Transportation Plan Street</u>: a transportation plan street which, if constructed, (1) would traverse or abut the developed property, or (2) would benefit the developed property, although it does not traverse or abut the developed property. The determination of a benefit or the degree of benefit shall be made by the City Engineer, engineering staff or a qualified consultant, employing generally accepted engineering principles and practices.
  - 2. The Transportation Plan-Map, which is part of the Rock Springs Master Plan,

establishes the street plan for the City of Rock Springs. More specifically, the Transportation Plan-Map identifies the location and designation of existing and proposed arterial and collector streets within the City.

- 3. Construction of Transportation Plan-Streets shall occur in an orderly manner as development occurs within the City of Rock Springs.
- 4. The Transportation Plan-Map shall be consulted to determine if property will impact a Transportation Plan Street.
- 5. A developer who develops property which impacts a Transportation Plan-Street, shall be required to construct or improve said street as required by this Section.
  - 6. Property traversed or abutting a Transportation Plan Street.
- a. If the developed property is traversed or abutted by a Transportation Plan-Street, the developer shall dedicate or cause to be dedicated to the City of Rock Springs, property comprising the full width of the street right-of-way as shown for the Transportation Plan-Street, and a length measured by the distance the property is traversed or abutted by the Transportation Plan-Street.
- b. A developer who develops property which is traversed or abutted by a Transportation Plan-Street shall construct or improve the Transportation Plan-Street in accordance with the following:
- (i) For residential development, except as provided under subsection (iii), the developer, at a minimum, shall construct a street to the residential standard for the length of the developed property, in accordance with Chapter 16, Article 9, of the Rock Springs Municipal Ordinances. For non-residential development, except as provided under subsection (iii), the developer, shall construct the street to the full street improvements designated by the Transportation Plan Map. The obligation to construct sidewalks as required by Chapter 16, Article 9, may be waived on one side of the street if deemed unnecessary by the Planning and Zoning Commission and the Governing Body after considering public health, safety and welfare.
- (ii) The Planning and Zoning Commission and Governing Body, after being advised by the City Engineer shall require street improvements deemed necessary for public health, safety, and welfare. The Planning and Zoning Commission and Governing Body shall consider such issues as, but not limited to, access for emergency vehicles, existing and proposed traffic counts, and access required to permit orderly development of adjacent areas.
- (iii) If the Planning and Zoning Commission and Governing Body, after being advised by the City Engineer, have determined that construction of the Transportation Plan Street is not necessary at the time of development, the developer shall pay a fee in lieu of the street construction as required under subsection (ii). Said fee shall be credited to a special fund, maintained and administered by the City of Rock Springs. The fund shall be applied exclusively to any future expenses incurred by the City of Rock Springs in constructing and/or upgrading any streets which traverse or are contiguous to the developed property.
- 7. Impact Fees for Impacted Transportation Plan Streets.
- a. If determined by the Planning and Zoning Commission and Governing Body, after being advised by the City Engineer, that the developed property is impacting a Transportation Plan-Street, an impact fee shall be required. Said impact fee shall be assessed at \$.15 \$0.20 per square foot of lot area and shall be placed in a fund designated for future improvement of the Transportation Plan-Street.
  - b. The impact fees assessed in accordance herewith shall not be due until the issuance of

a building permit for the lot or property parcel for which impact fees have been assessed.

8. The Planning and Zoning Commission and Governing Body shall review and approve, by Resolution, all Impacted Transportation Plan Street construction or improvement and impact fees. This Section shall be applicable to Chapter 16 and Chapter 13.

(Ord. No. 91-11, 10-15-91; Ord. No. 92-12, 12-1-92).

(95-14, Amended, 02/20/1996)

Amendment 4. That Section **16-806. As Built Plans** of the Ordinances of the City of Rock Springs be amended by deleting and adding as follows, (deletions are denoted by strikethrough and additions are denoted by underline):

#### 16-806 As-Built Plans.

- (A) Prior to the approval and acceptance of any completed improvements, as-built plans must be submitted to the City Engineer. The Five sets of the plans shall be submitted on 24" x 36" mylar bond paper and accompanied by two sets of prints. The plan submittal shall contain:
- (1) A cover sheet.
- (2) The subdivision plat.
- (3) The overall grading plan.
- (4) The overall street plan.
- (5) The overall water system and profiles.
- (6) The overall sanitary sewer system and profiles.
- (7) The overall drainage plan.
- (8) If constructed, the overall storm sewer system and profiles.
- (8) (9) Additional detail sheets as necessary at 1" = 50' scale, with title block and sheet numbers in the lower right hand corner of each page and showing the detailed location of all utilities to include service lines to lots. A permanent benchmark shall be described on each sheet.
- (B) The following certification by the project engineer shall appear on the face of the plans: I certify that these plans were prepared under my direct supervision and control, that they accurately represent the referred to improvements as they have been constructed in the field, and that the improvements, to the best of my knowledge, conform to the requirements of the Department of Environmental Quality, the State Highway Department, the City Engineer and other applicable agencies.

Wyoming P.E. Number

Amendment 5. That Section 16-807. Acceptance of Improvements of the Ordinances of the City of Rock Springs be amended by deleting and adding as follows, (deletions are denoted by strikethrough and additions are denoted by underline):

#### 16-807 Acceptance of Improvements.

At any time after the completion of construction of public streets and their inspection by the Director of Public Works Engineering & Operations, the subdivider may request that the City accept maintenance of the streets. The City Council may accept maintenance of streets, sewers, and rights-of-way if all work is in compliance with City specifications and requirements at the time of acceptance providing the developer presents to the City a one two year warranty on the

construction.

Amendment 6. That Sections 16-901 Street Standards, 16-902 Curb and Gutter, 16-903 Sidewalks, 16-904 Construction Standards, 16-905 Miscellaneous Standards of the Ordinances of the City of Rock Springs be amended by deleting and adding as follows, (deletions are denoted by strikethrough and additions are denoted by underline):

#### 16-901 Street Standards.

#### (A) Official Street Map.

The arrangement, character, extent, width, grade, and location of all streets shall be in conformity with the Official Map of the City of Rock Springs, these regulations and any further plans adopted by the City.

#### (B) Rights-of-Way Widths.

For all rights-of-way, the widths shall not be less than the following minimum design standards:

	Right-of-Way
Street Classification	Width
Arterial	100 feet

#### (B) Inspections and Test Requirements.

The subdivider shall provide an Engineering Inspector to conduct inspections and Field Tests for all construction and improvements included and required by this Section. The Engineering Inspector shall work under the direction of a Professional Engineer, licensed in the State of Wyoming. All reports shall be certified by the Professional Engineer. All inspections and tests shall be conducted and noted in an orderly manner as construction occurs.

Following completion of asphalt paving operations, the Engineering Inspector shall conduct pavement cores at locations determined by the City Engineer. Following completion of the improvements, the subdivider shall provide to the City Engineer a report certified by the Professional Engineer. The report shall certify the following criteria:

- 1. The test results required by Section 16-904(B) of this Ordinance. All test results must meet requirements of the Ordinance.
  - 2. Size, location, and slope of sanitary sewer lines.
  - 3. Location and elevation of manholes.
  - 4. Size, and location, tie-in elevations, and slope of storm drainage lines and catch basins.
  - 5. Size and location of water lines, valves, and fire hydrants.
- 6. Construction of all streets, including sub-grade preparation, road base, asphalt paving, concrete curb-gutter-sidewalk, and street grades.
- (C) Dust Control.

A dust control plan must be submitted to the City Engineer for approval before any construction begins.

(D) Manholes.

The maximum allowable distance between manholes is 350 feet. (Ord. No. 84-9, 7-84) (97-01, Amended, 02/04/1997)

#### 16-905 Miscellaneous Standards.

(A) Street name signs.

Height: 7.0' mounting height

Corner: NE corner, sign clearance - two feet behind sidewalk, or as directed by City Engineer. Sign sheeting material shall be at a minimum Type IV 3M Series 3930 or approved equal. Design of sign shall comply with City of Rock Springs Streets Department and MUTCD standards.

(B) Street traffic signs.

Height: 7.0' mounting height

Sign sheeting material shall be at a minimum Type IV 3M Series 3930 or approved equal.

#### Signs shall comply with MUTCD standards.

(C) Fire Hydrants.

Height: Center of pumper outlet, 16"-20" above grade facing the roadway.

Etc.: (2) 2 1/2" outlets; (1) 4 1/2" pumper outlet; with National Standard threads. Fire hydrant brand and model shall comply with City of Rock Springs and Joint Powers Water Board standards.

(D) Street Light Standards.

All street light standards shall be of wood or steel construction. (Ord. No. 92-18, 8-4-92).

- (E) Discouraging Residential Through Traffic. Minor residential streets shall be arranged so that their use by through traffic will be discouraged.
  - (F) Block Depths.

No block shall be less than twice the normal lot depth unless it abuts a railroad right-of-way, a limited access highway, an arterial or collector street, a river, a creek, a park, or an exterior boundary line of a subdivision.

- (G) Block Lengths.
- (1) Blocks shall be approximately four hundred (400) feet in length or increments thereof.
- (2) In blocks exceeding eight hundred (800) feet in length a twenty (20) foot wide easement throughout the block to provide for utilities and pedestrian traffic. A five foot wide paved sidewalk may also be required.
  - (H) Street Alignment, Center Lines.
- (1) Street jogs shall have a minimum centerline off-set of one hundred seventy-five (175) feet when applied to minor residential streets, in all other cases they shall be prohibited.
- (2) All streets shall join each other so that for a distance of at least one hundred (100) feet the street is approximately at right angles to the street it joins.
- (3) When connecting street center lines deflect from each other at any one point by more than ten (10) degrees, they shall be connected by a curve with a radius of not less than one hundred fifty (150) feet.
  - (I) Access Requirements for Subdivisions.

Subdivisions shall be required to provide adequate street access to ensure the health, safety, and welfare of the residents and/or the public. In addition, subdivisions shall be required to provide adequate street access to allow development of adjacent property. When 20 lots or more are served by a single access, a second access should be considered.

- (J) Dead End Streets.
- (1) The creation of dead-end or loop residential streets will be encouraged wherever the Commission finds that such type of development will not interfere with normal traffic circulation in the area. In the case of dead-end streets, where needed or desirable, the Commission may require the reservations of a twenty (20) foot wide easement to provide for continuation of pedestrian traffic and utilities to the next street.
- (2) Where dead-end streets are designed they shall not exceed eight hundred (800) feet in length or contain more than twenty (20) lots, whichever creates the shorter street, and shall terminate in a circular turn-around having a minimum right-of-way radius of sixty (60) sixty one (61) feet and a pavement radius of fifty (50) feet (Cul-de-sac). Corners at the entrances to the turn-around portions of cul-de-sacs shall have a radius of not less than fifteen (15) feet.
  - (K) Treatment Along Major Streets.

When a subdivision abuts or contains an existing or proposed arterial or collector street, the Commission shall require marginal access streets, reverse frontage with screen planting contained in a non-access reservation along the rear property line, deep lots with rear service alleys, or such

other treatment as may be necessary for adequate protection of residential properties and to afford separation of through and local traffic. The same may be required on collector streets where deemed in the best interest of the community.

#### (L) Service Streets.

Where a subdivision borders on or contains a railroad right-of-way or limited access highway right-of-way, existing or planned, the Commission may require a street approximately parallel to and on each side of such right-of-way, at a distance suitable for the appropriate use of the intervening land. Service streets shall intersect other streets in such a way that sufficient intersection stacking distance is provided without interfering with through traffic.

#### (M) Street Grades.

Grades of all streets shall conform in general to the terrain and shall not be less than 0.5 percent nor more than five (5) percent for arterial or major streets, or seven (7) percent for collector streets, or eight (8) percent for minor streets in residential zones, eight (8) percent for access streets, but in no case more than three (3) percent within fifty (50) feet of any intersection.

#### (N) Street Visibility.

A combination of steep grades and curves shall be avoided. In order to provide visibility for traffic safety, that portion of any corner lot (whether at an intersection entirely within the subdivision or of a new street with an existing street) shall be cleared of all growth (except isolated trees) and obstructions above the level three (3) feet higher than the center line of the street for a distance of at least thirty (30) feet from the right-of-way line. If directed, ground shall be excavated to achieve visibility. Trees and hedges over four (4) feet high shall not be permitted within six (6) feet of the street right-of-way.

#### (O) Street Radii.

- (1) Curves: Street lines within a block, deflecting from each other at any one point by more than ten (10) degrees, shall be connected with a curve, the radius of which for the centerline of street shall not be less than four hundred (400) feet on arterial and major streets, two hundred (200) feet on minor streets, and in no case shall the connecting tangent of two curves be less than one hundred (100) feet.
- (2) Corners: All roadways at intersections shall be rounded by curves of at least twenty (20) feet radius. Roadways of alley-street intersections shall be rounded by a radius of not less than six (6) feet. The center line of the intersecting streets shall be as near to ninety (90) degrees as possible and in no case shall the intersection be less than seventy-five (75) degrees.

#### (P) Commercial Areas.

In front of areas designed for commercial use, or where a change of zoning to a zone which permits commercial use is contemplated, the street width shall be increased by such amount on each side as may be deemed necessary by the Commission to assure the free flow of through traffic without interference by parked or parking vehicles, and to provide adequate and safe parking space for such commercial or business districts.

#### (Q) Street Names.

All street names shall be approved by the Commission and shall conform to an established numbering and naming system if such a system exists.

Proposed street names shall be substantially different so as not to be confused in sound or spelling with present names except that streets that join or are in alignment with streets of an abutting or neighboring subdivision shall bear the same name.

No street shall change direction by more than ninety (90) degrees without a change in street name.

The subdivider shall install street signs as required and approved by the Engineer.

(R) Prohibited Plans.

The following are prohibited and shall not be approved:

Half Streets:

- 1. Private streets unless part of an approved Planned Unit Development, in which case the streets shall conform to the approved design criteria of the City.
  - 2. Reserve strips controlling access to streets.
  - 3. Intersections with more than four (4) corners.
  - (S) Public Land Dedication, Parks, Open-Space.
- 1. Where a proposed park, playground, or open-space shown on the Comprehensive Plan is located in whole or in part in a subdivision, the Commission shall require that such area or areas be shown on plats in accordance with the requirements specified in this Section. Such area or areas shall be dedicated to the City by the subdivider if the City Council approves such dedication.
- 2. The Commission shall require that plats show sites of a character, extent and location suitable for the development of a park, playground, or other recreation purposes.
- 3. In all new residential subdivisions, seven (7) percent of the gross area shall be dedicated for public recreation space, school sites or other public use with such percentage being in addition to property dedicated for streets, alleys, easements, or other public ways. When a subdivision is too small for the practical dedication of public land, when no land in the subdivision is suitable for such use, or when the proposed park for the area is not to be located within the proposed subdivision, the subdivider shall be required to pay a fee of ten (10) percent of the land value prior to its subdivision (the market value shall be determined by utilization of assessment records and formulas that apply thereto).
  - (T) Easements.
- 1. Easements centered on rear and other lot lines as required shall be provided for utilities where and of the size necessary.
- 2. Easements shall be provided along each side of the center line of any water course or drainage channel whether or not shown in the Comprehensive Plan, to a sufficient width to provide proper maintenance and protection and to provide for water run-off and installation and maintenance of storm sewer.
- 3. Where a subdivision is traversed by a water course, drainageway, channel or stream, there shall be provided a storm water easement or drainage right-of-way as required by the Engineer.
  - 4. Easements shall be dedicated for the required use.
  - (U) Lots, Design, and Location.
- 1. The lot arrangement shall be such that in constructing a building in compliance with the Zoning Ordinance, there will be no foreseeable difficulties for reasons of topography or other natural conditions. Lots should not be of such depth as to encourage the later creation of a second building lot at the front or rear.
- 2. All side lines of a lot shall be at right angles to straight street lines and radial to curved street lines, unless a variance from this rule will give a better street or lot plan.
- 3. The lot dimensions shall not be less than the minimum required to secure the minimum lot area specified in the Zoning Ordinance. Through lots, when permitted, shall have additional depth of ten (10) feet for screen planting along the rear line. Remnants of lots below the minimum required size shall not be allowed but must be added to adjacent lots.
- 4. Lots abutting upon a watercourse, drainageway, channel, stream or water body shall have additional depth or width, as required to assure that house sites are not located in the one hundred

(100) year floodplain.

3rd Reading

- 5. In the subdividing of any land, regard shall be shown for all natural features, such as trees, watercourses and bodies, which, if preserved, will add attractiveness to the proposed development.
- 6. Where a proposed residential lot is adjacent to a limited access highway, major highway, earterial street, or collector street, there shall be no direct vehicular access from individual lots to such roads. A temporary entrance may be granted for single tracts until neighboring land is subdivided and the required access can be feasibly provided. (Ord. No. 1980, 1-17-72; Rev. Ord. 1979; Ord. No. 83-6, 4-19-83).
- V. Street Improvements To Be Designated. No subdivision plat shall be approved unless the subdivider has designated street improvements for the entire front of all interior lots, and the entire front and side of all corner lots. (Ord. No. 93-10, 7-20-93). (97-01, Amended, 02/04/1997)

#### Request

Petition for Zoning and Subdivision Ordinance Language Amendment to amend Article 13-9 Zoning Administrative Procedures, Article 16-8 Subdivision Improvements, and Article 16-9 Subdivision Design Criteria.

#### Background

The City of Rock Springs Engineering Department has conducted a detailed review of the Subdivision Regulations. Updates and changes are needed to address problems areas in the regulations. There is one section of the Zoning Ordinance included in the amendments.

#### **Analysis**

Specific sections for amendment are:

13-904 Procedure for Site Plan Approval; A. General Requirements

13-906 Procedure for Planned Unit Development (PUD) Approval; E. Final Development Plan (1) Approval

16-805 Installation of Improvements; A. Sanitary Sewer System; (B) Storm Drainage System; (C) Water Main System; (D) Streets, Street Grading and Surfacing; (E) Street Lights; (F) Fire Hydrants; (G) Utilities: Gas, Electricity and Telephone, Etc; (H) Other Facilities or Improvements; (I) Monuments

16-806 As-Built Plans (A)

16-807 Acceptance of Improvements

16-901 Street Standards (B) Rights-of Way Widths

16-903 Sidewalks

16-904 Construction Standards (A) General; (B) Inspections and Test Requirements

16-905 Miscellaneous Standards (A) Street Name Signs; (B) Street Traffic Signs; (C) Fire Hydrants; (J) Dead End Streets; (K) Treatment Along Major Streets; (L) Service Streets; (U) Lots, Design, and Location

The amendments are necessary to make adjustments in construction standards and administration mechanisms for staff to use in administering the subdivision regulations. Input has been provided by the Engineering Department and those changes are included in these amendments. Good Subdivision Regulations ensure higher quality construction which includes streets, curb-gutter-sidewalk, water and sanitary sewer lines, storm drain lines, surface drainage, fire hydrants, street lights, street signs, pedestrian issues, utilities including power, gas, communication lines, and the need for Transportation Plan Streets including arterial and collector streets. All of these issues were taken into account with this review.

#### 1. Petition

Petition for Rezone from I-2 (Heavy Industrial) to I-1 (Light Industrial) for property abutting to the rear of Macy's Truck Repair at 925 Stagecoach Blvd

#### 2. Background Information

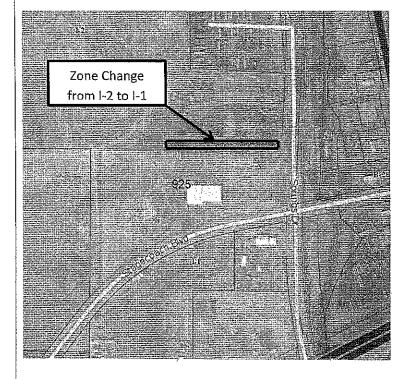

The Macy's Truck Repair was constructed in 2001 on a large tract on Stagecoach Blvd, Zoned I-1. Bruce Macy owns a smaller track, 1.383 acres in size and zoned I-2, abutting the rear of the Macy's Truck Repair parcel. Bruce Macy now has submitted a Lot Line Adjustment to include the rear parcel into the main parcel. This parcel is being combined and a Zone Change to I-1 is necessary.

#### 3. Existing Zoning I-2

Generally, this is the least restrictive Zoning District, Permitted Uses include Principally Permitted Uses of the B-1, B-2, and I-1 Districts, including those uses of the I-2 District which includes exterior storage of goods and materials, motor freight terminals, railroad switching and classification yards, welding and fabrication.

#### 4. Proposed Zoning I-1

Principally Permitted Uses include Permitted Uses of B-1 and B-2, including contractors offices, automotive and truck repair, outside storage of materials.

#### 5. Size and Location
