

City of Rock Springs)
County of Sweetwater)
State of Wyoming)

City Council met in regular session on November 16, 2021. Mayor Timothy A. Kaumo called the meeting to order at 7 p.m. Members present included Councilors Robinson, Demas, Zotti, Halter, Bettolo, West, and Hickerson. Councilor Savage was absent from the meeting. Department Heads present included Dwane Pacheco, Rick Beckwith, Jim Wamsley, Paul Kauchich, Dave Lansang, and Matthew L. McBurnett. The pledge of allegiance was recited.

Approval of Minutes

Moved by Councilor West, seconded by Councilor Bettolo to approve the City Council Meeting Minutes of November 2, 2021. Motion carried unanimously.

PRESENTATIONS AND PROCLAMATIONS

Union Wireless Proposed Lease—Tyler Tholl

Tyler Tholl, Union Wireless is present to discuss a proposed lease with the City of Rock Springs. Union Wireless is interested in pursuing a tower placement project. Strata Technologies currently own an existing tower near the placement proposal; however, an improvement study was done, which determined that this tower is not capable of improvements. A new tower is now needed in the area. Union Wireless is considering the possibility of placing a tower on City land, in the Kiwanis Ballfields area. Placing a new tower would provide this part of town the best coverage, as this is an area with limited coverage, which can result in dropped calls and slower data speeds. Other areas near this were considered, but there are not many options. As such, Union is being pushed toward the Kiwanis Ballfields location. They understand that they will need to comply with the Planning & Zoning process, but they wanted to start with the Governing Body to explore the possibility of a long-term lease for the placement of this tower on City property. Mayor Kaumo asked how long the Union leases are normally written for, and Mr. Tholl stated that they are generally written for 25-30 years in length, to be done in 5 year increments, with five renewal options offered. Mayor Kaumo asked about stipulations in the lease that would constrict future development to the parcel. Mr. Tholl stated that he believes any structure under thirty feet tall would still work, adding that he checked with Laura Leigh, City Planner, and this area is zoned for light residential. Ms. Leigh stated that a preliminary review was done on this prior to it moving forward. Placement of the tower would be a permitted use and not a conditional use permit, where neighboring properties would be required to be notified. Mayor Kaumo asked about access, and where that would take place, whether boundary work would need to be done in order to allow that. Mr. Tholl stated that some work would need to be done, and the boundary lines are unclear according to Sweetwater County's plat map. If I Street extends, no easement would be needed, but if this is private property, approaching the landowner will be required. Pavement will be needed to the tower area. Councilor Halter asked whether the site would include the additional equipment for AT&T and FirstNet, and Mr. Tholl confirmed that it would, and that is part of the reason they are exploring new structure locations. A one hundred foot height is proposed in order to allow for co-locator equipment to have the space needed. The hundred foot height is driven by the possibility of a tower or foundation failure, so that the tower would fail within its leased boundaries and not near neighboring properties. There are some

concerns of subsidence in the area, so Union Wireless proposes core drilling of two hundred feet to ensure that the tower and foundation installed is as secure as possible. Mayor Kaumo asked whether the Strata tower would remain, and Mr. Tholl stated that it would stay, and that they are strongly encouraged to place their equipment on existing towers, but if it cannot take place, new towers may be built. This would be the best solution for adding co-location equipment. Councilor West asked how tall the Strata tower is, to which Mr. Tholl stated it is approximately one hundred feet as well. Mayor Kaumo stated that this has always been a very rocky outcrop of land with no plans made for it, so he sees no issues except for the I Street access easement, if required. He advised that Union Wireless works with Laura to identify the access. Mr. Tholl stated that they will continue their preliminary work. Councilor West asked for clarification of neighboring properties being contacted, to which Ms. Leigh stated that it would not be required per her normal processes, but the Governing Body can require it at some point in the lease or the application process, if preferred. Councilor West stated that he feels neighboring property owners should be informed of this tower being installed prior to it being approved. Ms. Leigh stated that neighbors will be notified through the process.

Small Business Saturday Proclamation—November 27, 2021

Mayor Kaumo proclaimed November 27, 2021, to be Small Business Saturday in the City of Rock Springs and urge the residents of our community, and communities across the country, to support small businesses and merchants on Small Business Saturday and throughout the year. He added that after this tough year, shopping small is more important than ever.

PUBLIC HEARINGS

A Public Hearing regarding flat rental amounts for each public housing unit

No comments were received.

PETITIONS

Councilor Brent Bettolo stated that the storm-water retention walls are being constructed from the concrete replacement project currently, and asked whether the next two walls will be sent to bid. Paul Kauchich, Director of Engineering/Operations & Public Services, stated that the next two walls will be included in the next concrete replacement project bid.

Robert Kornman, Kornman's Kettle Korn, stated that he read the proposed Ordinance for mobile food vendors, and he believes that the Governing Body did a good job drafting it. The most important thing is ensuring that the vendors read it. This Ordinance is to protect vendors. Regarding setting up at a public event, they were previously allowed to plug into the City's power. According to the Ordinance, written permission is needed now to do that. He asked if it would be the responsibility of the promoter of the event, or the vendor. Mayor Kaumo stated that the intention is that if it were the Farmer's Market, for example, all vendors would be covered under one request by the event organizer. Mr. Kornman expressed support of the Ordinance. He added that the City does not have time to spend enforcing this. Mayor Kaumo replied that it is more of a neighborhood watch system. Mr. Kornman asked about enforcement and who would be contacted, and Mayor Kaumo stated that on the weekend, the Police Department may provide that coverage. Mayor Kaumo stated that many of the vendors around town will call when

enforcement is required of vendors who do not follow the rules. Mayor Kaumo stated that staff has done well, and participation by all the individuals who showed up at the first reading and public hearing proves that the process does work when participation is provided. Mr. Kornman asked about submitting forms online when locations change. One thing the Governing Body hopes to add is an effective date of January 1, 2022. Councilor Zotti stated that one application is required, so scheduling events and locations are up to the vendor to secure permission from the property owner, but that the City does not need to be notified of each location change, etc. The only time that will require notification will be where they remain at a property for 30 days or more, which would change their classification from a mobile vendor to a stationary vendor. The application is under draft at this time and will be distributed once it is finalized. Councilor Zotti asked Rick Beckwith, City Attorney, whether changes need to be made to the Ordinance to clarify whether the event organizer should obtain permission to use power, etc. Mr. Beckwith stated that the intention to allow this is there, but if the Governing Body feels that language needs to be added to provide further clarification, it can be done. Mr. Kornman stated that verbal permission is obtained currently, but with the new Ordinance, written permission is required, to which Mayor Kaumo confirmed. Mr. Beckwith added that a formal written document is not required, any form of written permission will work.

Cherell O'Driscoll, Cream on the Moove, stated that she did some research from other cities, adding that some outline decibels with regard to the music that ice cream trucks play and she wondered whether this should be considered. Mr. Beckwith stated that those things will also be complaint driven, and he is unsure whether police officers carry a decibel reader to be able to enforce this if it were written into the Ordinance. Mayor Kaumo believes that adjustments have been made to the Ordinance to allow for this specific operation, and asked whether the current language will be abolished that restricts noise from her truck, to which Councilor West confirmed. Ms. O'Driscoll asked about the location of her generator on the truck, and stated that this Ordinance does not include this so she wanted to check. Ms. Leigh stated that she believes this portion of regulation is housed in the Fire Code, and Jim Wamsley, Fire Chief, added that this would probably reside in Fire Code, but he is unsure where. Mayor Kaumo stated that as issues come up, they are dealt with in a common sense fashion, so sometimes Ordinances can be tough to draft.

OFFICER AND STAFF REPORTS

Health Insurance Fund Recap—October 2021

Financial Report Summary—October 2021

Rock Springs Renewal Fund Financial Statements—June 2021

Moved by Councilor Bettolo, seconded by Councilor Hickerson to approve the Officer and Staff Reports and place them on file. Motion carried unanimously.
